

June 25, 2010

To all of our valued Customers,

I would like to introduce myself as the new *Applications Engineer & Product Specialist* for Nucor Fastener. Whereas I am new in this position, I am very familiar with Nucor Fastener being that I have worked for ten years at the facility in metallurgy, quality assurance, and production management. I have recently transferred back to Nucor Fastener from our Nucor Steel Memphis facility, where I served in various capacities from plant engineering, technical services development, and operational management.

I am sure that my experiences at both of these facilities will allow me to help your team find new solutions and explore new product and process capabilities that Nucor Fastener is able to produce for you. Please do not hesitate to email or call me at (260)337-1638 or [kevin.johnson@nucor.com](mailto:kevin.johnson@nucor.com) with any questions, concerns, or ideas.

Let's Do it Together!

Kevin Johnson  
*Applications Engineer  
& Product Specialist*  
Nucor Fastener Division
